

When the air inside
your home is this clean,
why would you ever
want to go outside?

American Standard
HEATING & AIR CONDITIONING
americanstandardair.com

American Standard high-efficiency systems do more than keep your home the perfect temperature year in and year out. Our revolutionary AccuClean™ whole house air filtration system eliminates up to an extraordinary 99.98% of airborne contaminants from the filtered air in your home. Making it healthier for everyone in your family, winter, spring, summer and fall. So, if you don't yet own an American Standard system, maybe it's time for you to take the plunge.
